PICK THE ROADS FOR STATE SYSTEM

COUNTY OFFICIALS PRESENT 147½ MILLS FOR BOARD'S APPROVAL.

KINDS OF HIGHWAYS ARE ALSO DISCUSSED

H. W. Graham Suggests Paving Brick and Concrete Roads Built at Cost of $10,000 a Mile.

According to the plans made by the County Court, the Highway Commission and H. W. Graham, supervisor of State Roads for District No. 1, 147½ miles of roads in Nodaway County will be designated as part of the state highway system. A map of these roads was furnished to Mr. Graham, who will take up their locations and general desirability with the State Highway Board in whose hands will be the work of finally designating the roads of the system.

The national and state government will pay dollar for dollar of the amount raised by Nodaway county for hard surfaced roads with either brick, brick and concrete or concrete roads, sixteen feet in width, but for the state to get the appropriation from the national government it is necessary to build at leost 3,800 miles of roads in the state. This would give each county an average of thirty miles of roads but some of the counties will not take advantage of the state and national government offer, so that Nodaway county may get a greater portion than the original allowance of thirty miles would indicate.

The roads designated in Nodaway county are.

Maryville-Albany road via Ravenwood, 15 miles to the county line.

Maryville-Bedford road via Gaynor City, 17½ miles.

Maryville-Bedford road via Hopkins, 18½ miles.

Maryville-Clarinda road via Clearmont, 24 miles.

Maryville-Savannah road via Barnard, 17½ miles.

Maryville-Rock Port road via Burlington Junction, 9½ miles; via Quitman, 13¾ miles.

Maryville-Oregon road via Graham, 14½ miles.

Maryville-Oregon road via Skidmore 17 miles.

Mr. Graham talked of the different kinds of roads, the best being of a nine-foot center of paving brick, supported by two or three foot shoulders or sides of concrete, which would cost $10,000 per mile. Another permanent and durable road suggested, costing less, was of concrete center with a macadam binder or sides.

The only practical way for the county to raise their portion for these roads would be by a county-wide bond issue.

HAIG'S FORCES ARE SMASHING FORWARD

HOLDING FAST TO HARD WON POSITIONS NEAR ARRAS.

EVERY WAR DEVICE USED IN BATTLES

Machine Guns, Hand Grenades, Bayonets and Liquid Fire Being Employed by Both Sides.

Special to The Democrat-Forum.

London, May 12.—General Haig's forces are smashing their way forward again, the war office announced. The British made further advances last night and early this morning following their repulse of a furious attack by the Germans.

London, May 12.—Despite the fact that the Germans are attacking with every kind of artillery and every human force the British today are holding fast to their hard-won positions on the Arras front. They beat back Teutonic attacks of unprecedented fury last night, and today one of the greatest battles of the last few weeks is in progress; machine guns, hand grenades, and bayonets coming into play. Even liquid flames, boiling oil and poisonous gas are being employed.

In the official bulletins there is not the slightest indication that the Germans have obtained a foot of ground. At some points the allies were pushed back by sheer weight of numbers, but later recovered their ground. On the French front the Germans are suffering signal defeats. The Germans were driven back by artillery fire at Cerney and Chemine Dames, but retained hold of a few yards of trenches from which they were later ejected by bayonet attacks.

Religion, Withstanding Cynicism, Has Survived Through the Ages. Go to Church.

A GREAT number of the people who GO TO CHURCH are men and women with the WISDOM OF YEARS AND EXPERIENCE. Many young people who seem to REJOICE WHEN THEY ARE CALLED CYNICS not only fail to GO TO CHURCH, but flippantly refer to the movement.

One great writer said, "WHO ARE A LITTLE WISE THE BEST FOOLS BE." Another said, "A LITTLE LEARNING IS A DANGEROUS THING." Churches have survived through the ages. One hates to think what would become of this world without churches and religion. The churches TEACH RIGHTEOUSNESS. And yet there are some young people who are disposed to take lightly this splendid GO TO CHURCH movement.

Happily they are in the great minority, and it is certain that they will soon be moved by the AWAKENING OF RELIGION over the land. In many churches in the west preachers report a SPLENDID ATTENDANCE OF YOUNG PEOPLE.

THE DAY IS GONE WHEN IT CAN BE SAID THAT THE CHURCH IS ALL RIGHT FOR OLD WOMEN AND CHILDREN. GO TO ANY OF THE GREAT CITIES IN THE COUNTRY AND NOTE THE REAL BIG MEN, THE MEN YOU'D LIKE TO KNOW, AT DIVINE SERVICE. THEY ARE PROUD TO BE SEEN IN CHURCH. NO, INDEED, THE CHURCH IS NOT FOR THE OLD AND THE WEAK. IT IS FOR THE YOUNG AND STRONG. IT IS FOR EVERYBODY, FROM THE HIGHEST TO THE LOWEST. PRESIDENT WILSON HAS EMPHATICALLY GIVEN HIS APPROVAL TO THE GO TO CHURCH MOVEMENT.

If you are one of the young men who has been reached by the GO TO CHURCH appeal and now regularly attend church, you are to be commended. But you can do more. You can induce that friend of yours who is inclined to cynicism to join the GO TO CHURCH throng. Argue with him. Plead with him. Show him the right way. If you do this, you'll be doubly rewarded.

Get him to GO TO CHURCH next Sunday.

Get him to GO EVERY SUNDAY.

Through its news sources in Europe the International News Service has received an important communication by Admiral Sir J. Jellicoe, until recently commander of the British Grand Fleet, in which he discusses the submarine menace and other sea warfare problems. He declares there is no single sovereign remedy for the U-boat, but it is to be noted that at the time he made the statement he knew nothing of the new American inventions now being developed.

By Admiral Sir J. Jellicoe.

Nobody knows better than those in the navy that the navy cannot win a war by themselves. The navy's business, so far as the army is concerned, is to hold the ring; to get the army to its destination; to keep open its communications and carry its supplies; and to see that its operations are not interfered with. But the navy cannot win the war; the war has to be won on shore. We cannot get at the Germans. Their ships stop inside their ports, and if they come out to fight they will not go back again I hope.

Where Navy Exerts Power.

The other directions in which the navy exerts its power during the war are: First, its business is to defeat the high sea fleet wherever it appears; secondly, to sink enemy submarines wherever they are found, as difficult a task, I suppose, as was ever put before any navy; thirdly to keep open the communications to this country for our food supplies and munitions, and fourthly, to stop supplies getting into the enemy's country, and to see that an enemy ship which gets afloat has a very short life.

When the war started the submarine menace was comparatively small. In the early days the principal menace was to our fleet. As the war progressed the Germans commenced to use their submarines in utter disregard of every principle of international law and of humanity, and the departure from international law has led to a new and difficult situation. At one period the German submarines attacked our merchant ships on the surface. In order to meet that menace we armed our ships defensively.

Enemy Attack Under Water.

The enemy is now forced to attack under water, and although that has limited very much the activity of the submarine, the counter to that attack is much more difficult than to surface attack. In order to give security, we want not men, but large numbers of small craft. I should like to say that what the navy wants is for every man who takes part in the building of ships to do the utmost that lies in his power to carry out his work, because a fleet of small craft prevents losses, and the building of merchant ships replaces those lost.

There is no one sovereign remedy for the submarine. The methods for dealing with them are a combination of devices, and fresh schemes are daily introduced.

Submarine Diving Uncertain.

The process of a submarine diving and a submarine sinking are much the same in appearance, and therefore you are never certain whether she dived voluntarily or involuntarily. You know that the dive has been involuntary when some survivers are picked up. But the number of cases of that sort are not great, because when a submarine is attacked she gets all hands inside as soon as possible, ready to fire

At the same time, while it is a fact that the submarines are by no means getting off scot free, there is undoubtedly a serious time before our country and economy in food consumption should be the order of the day.

MINIMUM PRICE FOR FOOD

Dean Mumford of Missouri College of Agriculture Would Urge the Farmers to Get Guarantee.

Special to The Democrat-Forum.

Columbia, Mo., May 12.—Dean Mumford of the Missouri College of Agriculture urges all farmers to support the recommendation of Secretary of Agriculture Houston that a minimum price for food crops be guaranteed by the United States government.

"Every farmer should favor Secretary Houston's proposal that the National Council of Defense be given power to regulate prices if necessary for the efficient distribution of food products," said Dean Mumford.

"Farmers are being urged to exert every energy to produce maximum crops for the prosecution of the war. But the farmer is opposed to raising a maximum crop and having it pass into the hands of speculators for private gain to the harm of both producer and consumer. The farmer will not hesitate to produce a maximum crop if he can be assured that it will become directly available to the Government for war purposes, and will not be subjected to the manipulation of food speculators."

Kansas City Stock Letter.

Kansas City Stock Yards, May 12.—Cattle receipts of 14,000 today included 2,300 head of stock cattle that passed through yesterday, but that left a liberal number, and a heavy run at Chicago weakened buyers here, resulting in a slight decline on some of the steers, many of the steers steady, butcher cattle and stockers and feeders strong. Thirteen thousand hogs sold 10c lower, top $15.75, and four thousand sheep sold strong. Arizona spring lambs $16.00.

Beef Cattle.

The best cattle here were pulp fed steers from Colorado and Western Nebraska, 18 cars of these selling at $12.00 to $12.25, best natives here at $11.75 to $12.00, short fed natives $10.50 to $11.50, light weight cattle without much flesh $9.00 to $10.00. The supply of pulp cattle was 35 cars, about one-half as many as on recent Mondays. Few are in sight for later this week, and the supply of that kind will be very light after this week. Butcher cattle hold their strength, the search for substitutes for steers at this season always resulting in high prices for cows, heifers and bulls. Good cows sell around $10.00, bulls up to $10.00, heifers $11.35, veal calves up to $13.50.

Stockers and Feeders.

Six loads of stock steers sold at $10.30 the first thing this morning, a strong price, and fancy stock heifers at $10.25. Few stock feeders sell under $8.00, and stock cows commence around $7.00. Feeding steers sell at $9.50 to $10.50, a few fleshy steers in the last week up to $11.25. Prices are 25 to 35 higher than a week ago, with a very good demand.

Hogs.

A good run at Chicago today weakened the situation, and sales here were 10c lower, top $15.75, medium weights up to $15.70, best light weights $15.40, bulk of sales $15.60 to $15.70. Supplies here are augmented by daily arrivals of shipments of hogs from Western range states, California, Arizona, New Mexico, and Colorado consignments having become regular incidents. These hogs are generally light weight, but that class is meeting a good demand from bacon makers, and sales of hogs 150 lbs. and upwards average 10c to 25c higher than last week. Pigs sell at $11.50 to $13.75 in most cases.

Sheep and Lambs.

Choice wooled lambs sold up to $17.60 last week, and lambs of that grade would bring more money today, if there were any offered. Arizona and California spring lambs each reached $16.50 last week, some Arizonas not quite as good here today at $16.00. Texas is the big disappointment, sending only very small supplies of common sheep, and few goats. One double deck of Angora brushers, 67 lbs. average, sold at $9.00 last week. Twenty thousand brusher goats would be required to fill orders already held here.

FINAL GOOD.

Oh, yet we trust that somehow good
Will be the final goal of ill,
To pangs of nature, sins of will,
Defects of doubt and taints of blood;

That nothing walks with aimless feet;
That not one life shall be destroyed,
Or cast as rubbish to the void,
When God hath made the pile complete;

That not a worm is cloven in vain;
That not a moth with vain desire
Is shriveled in a fruitless fire,
Or, but subserves another's gain.

Behold! we know not anything;
I can but trust that good shall fall
At last—far off—at last, to all—
And every winter change to spring.

So runs my dream, but what am I?
An infant crying in the night—
An infant crying for the light—
And with no language but a cry.
—Alfred Tennyson.

What Does Catarrh Mean?

It means inflammation of a mucous membrane somewhere in the head, throat, bronchial tubes, stomach, biliary ducts or bowels. It always means stagnant blood—the blood that is full of impurities. Left alone, it extends until it is followed by indigestion, colds, congestion or fever. It weakens the system generally and spreads its operations until systemic catarrh or an acute illness is the result.

Peruna

Is the nation's reliable remedy for this condition. It restores appetite, aids digestion, checks and removes inflammation, and thus enables the membranes, through which we breathe and through which our food is absorbed, to do their work properly. Forty-four years of success, with thousands of testimonials, have established it as the home remedy—Ever-Ready-to-Take. Its record of success holds a promise for you.

TO YOUNG MEN.

(By Lieutenant Commander E. S. Root, U. S. Navy, Inspector of Recruiting, Central Division.)

Your country is at war. For several weeks you have had time for reflection. If you have real red blood in your veins, you have said many times to yourself: "How can I best serve my country in this war?"

And your answer — what has it been? You want to do your part, but at the same time—you want to choose that branch of the service that offers the best opportunity for your future while you serve your country.

The answer, young man, is the Navy

Stop for a moment and think of what the Navy has done all down through history; think of the men it has produced, and the deeds they have done. Hark back to the beginning of our Navy. There was John Paul Jones—that intrepid leader of men who guided his ship safely through uncharted seas, who harassed the coast of England from waters strange to him, who sailed up the Thames River, destroyed three enemy ships and ran to sea again.

Young man, he had no better opportunity at the start than you have today.

Look back again into the pages of history, and stop at the name of Stephen Decatur. For your inspiration today, remember that when Decatur was sent to the Coast of Tripoli to pay tribute t othe pirates of that land—and all nations were paying tribute, Decatur went over and whipped them. That's the American way.

And again, remember McDonough, the son of a Delaware farmer, a boy whose only sea experience had been limited to coast and inland waters. In 1812, McDonough was sent to the Great Lakes to drive back the forces from Canada. He had the plain, common grit and nerve you young men of today have—and he built twelve wooden ships in 65 days and whipped the British.

Come down to the present day, young man. Take the life of Admiral Charles J. Badger of the Atlantic fleet as your guiding star. When he entered the Naval Service it was as an enlisted man. Today he is one of the nation's greatest Admirals.

Young man, the Navy offers equal opportunity to all. It is calling you NOW. IT NEEDS YOU.

And, young man, keep this in mind: The Navy offers you a life of travel, romance and adventure stronger than any page from fiction.

Who knows but that you, in the middle Western city, or on the farm young man, may be the Jones or the Decatur, or the McDonough, or the Badger of coming days?

Who knows but that you, out here many hundred miles from the sea, are the great Admiral of the future?

Join the Navy, young man.

REFERENDUM CAN'T REACH THEM

Special to The Democrat-Forum.

Jefferson City, May 12.—In an informal opinion by Attorney-General McAllister today, it seems that none of the revenue measures enacted by the last general assembly can be tied up through the referendum. He thinks the inheritance tax law cannot be reached by referendum.

THEY COULDN'T STAND YELLOW STREAK SIGN.

Pittsburgh. — Angry at the haste many young men were making to obtain marriage licenses in view of the country's call for unmarried citizens, an official of one of the Pittsburgh departments caused a big yellow card to be hung on the application clerk's desk in the marriage license office, with the remark that "he hoped it would turn some of the quitters back." It did. Of the first 150 couples who entered the room one day fully forty, after a look at the big yellow streak, quietly turned and disappeared.

PICK THE ROADS FOR STATE SYSTEM

COUNTY OFFICIALS PRESENT 147½ MILLS FOR BOARD'S APPROVAL.

KINDS OF HIGHWAYS ARE ALSO DISCUSSED

H. W. Graham Suggests Paving Brick and Concrete Roads Built at Cost of $10,000 a Mile.

According to the plans made by the County Court, the Highway Commission and H. W. Graham, supervisor of State Roads for District No. 1, 147½ miles of roads in Nodaway County will be designated as part of the state highway system. A map of these roads was furnished to Mr. Graham, who will take up their locations and general desirability with the State Highway Board in whose hands will be the work of finally designating the roads of the system.

The national and state government will pay dollar for dollar of the amount raised by Nodaway county for hard surfaced roads with either brick, brick and concrete or concrete roads, sixteen feet in width, but for the state to get the appropriation from the national government it is necessary to build at least 3,800 miles of roads in the state. This would give each county an average of thirty miles of roads but some of the counties will not take advantage of the state and national government offer, so that Nodaway county may get a greater portion than the original allowance of thirty miles would indicate.

The roads designated in Nodaway county are.

Maryville-Albany road via Ravenwood, 15 miles to the county line.

Maryville-Bedford road via Gaynor City, 17½ miles.

Maryville-Bedford road via Hopkins, 18½ miles.

Maryville-Clarinda road via Clearmont, 24 miles.

Maryville-Savannah road via Barnard, 17½ miles.

Maryville-Rock Port road via Burlington Junction, 9½ miles; via Quitman, 13¾ miles.

Maryville-Oregon road via Graham, 14½ miles.

Maryville-Oregon road via Skidmore 17 miles.

Mr. Graham talked of the different kinds of roads, the best being of a nine-foot center of paving brick, supported by two or three foot shoulders or sides of concrete, which would cost $10,000 per mile. Another permanent and durable road suggested, costing less, was of concrete center with a macadam binder or sides.

The only practical way for the county to raise their portion for these roads would be by a county-wide bond issue.

After a number of patriotic songs had been sung, the men were divided into groups and each group put on a stunt. The Booster group sang a song, the "Rounders" told a story, the "Boobs" put on a guessing contest and played leap frog, and the "Jolliers" told a story.

A resolution was passed to try to get all members out to the next meeting, which will be held June 1.

Walter Hanson, director of athletics at the Normal, today announced the names of the men who would represent the Normal at the annual track meet of the Missouri Inter-Collegiate Athletic association to be held at Liberty, on Friday, May 18.

Chauncey Saville, star distance runner and winner of the individual cup in the Normal class meet, will head the team. The other members of the team are E. H. White, George Hubbard, and Lee Scarlett.

FOR MOTHERS' DAY

FIVE PROTESTANT CHURCHES TO HAVE SPECIAL PROGRAMS.

CARNATIONS PROVIDED

Flowers Will Be Worn in Honor of Mother at Services — Parents' Day at Presbyterian.

The five Protestant churches of Maryville will unite in observance of Mothers' and Parents' Day at their various places of worship tomorrow. In several of the churches elaborate programs have been prepared and in others the commemoration of mother will be held as a part of the regular services.

First Methodist Church.

At the First Methodist church a special committee has arranged for the celebration of Mothers' Day. The services will be held during the Sunday school hour and each department of the Sunday school will have a program. All mothers are invited to attend the classes and will be presented with white carnations. Transportation will be furnished to and from the church for those mothers who would be unable to come otherwise.

The Rev. Gilbert S. Cox, pastor of the church, will be unable to take his part in the services on account of a severe cold but he has secured the services of Prof. L. M. Jones, head of the Department of Education at Missouri-Wesleyan College, Cameron. Professor Jones, who will preach at both morning and evening services is one of the brightest men in the service of the Methodist Episcopal denomination. He is a graduate of Baker University, where he took his B. A. degree and of Columbia University, New York, where he took his M. A. In addition to this he took his degree of Bachelor of Theology at the Union Theological seminary at New York. He is a forceful and an interesting speaker and his sermons will be worth the hearing.

At South Methodist Church.

Services at the South Methodist church will be in connection with the Sunday school program. The Rev. R. C. Holliday will preach a sermon on "The Mother of Jesus," and a special musical program has been arranged. Carnations will be given to all mothers attending the services.

There will be no evening service at the church as the Rev. Mr. Holliday will preach the Baccalaureate sermon for the High school graduates at Skidmore. His subject at Skidmore this evening will be "Investing a Life."

At the Baptist Church.

Beautiful Mothers' Day badges will be the gifts of the First Baptist Sunday school to all of the mothers who attend the services at the church tomorrow. The Sunday school will be devoted to hymns and talks in honor of Mother and the Rev. T. H. Wiles will preach a sermon, "The Uncrowned Queen," during morning worship.

At the First Christian Church.

A feature of the First Christian church services at the morning hour will be a program given by the orchestra, which was recently organized. Carnations will be given to all of the mothers attending the Sunday school and a lesson pertaining to mother will be given. The Rev. C. Emerson Miller will preach a sermon on "Mother Love," during the church hour.

The Presbyterian Church.

The order of service for "Presbyterian Day," and "Parents' Day," at the First Presbyterian church tomorrow will begin with Sunday school at 9:45 o'clock a. m., at which there will be an extra musical program by the Sunday school orchestra of six pieces.

At the 11 o'clock church service the pastor, the Rev. S. A. Coile, will preach from the text, "Honor Thy Father and Thy Mother."

The music at this hour will include beside the organ and orchestra numbers, a solo, "I Wear a White Flower For You," sung by Emery Airy, with orchestra accompaniment and chorus sung by Dr. S. A. Coile, M. E. Ford, and Fred Davis; and a solo, "Mother's Songs," by Mrs. Charles Edwin Wells.

From 12 until 1 o'clock will be "fellowship hour," during which all will have an opportunity to give a glad hand to a friend and get acquainted with one another.

At 1 o'clock luncheon will be served in the Sunday school rooms. Every household is to bring a filled basket and hot coffee will also be served.

Maryville High school covered herself with glory both in the track and literary events, held at Trenton yesterday afternoon and evening when she came home with second place in the track meet, winning a silver loving cup the first that has ever been won in athletics in the High school and taking a first and second place in the literary contests. Trenton captured first place with 60½ points while Maryville's second place was secured by 22 points.

Eugene Yehle captured the most honors for the Maryville track team. He made a new state record in the pole vault, taking first place, height 11 ft. 2½ in. He took second in the 50-yard dash, time 5 and four-fifths seconds, third in the 220-yard dash, time 23 2-5 seconds, and third in the 100-yard dash, time 10 and 2-5 seconds.

Ralph Yehle was the second highest point winner, breaking the record in the high jump with height of 5 feet 6½ inches. He also took third in the pole vault and third in the running broad jump.

Lester Masters, the third member of the team got fourth place in the shot put.

In the literary contest both Miss Erma Greene and Martin Lewis were entered in the finals. Miss Greene took first place in the girls' declamatory contest with "The Story of Patsy," by Wiggins and Martin Lewis took second in the boys' oratorical contest with "The March of the Flag," by Beveridge.

Both Miss Greene and Mr. Lewis made a splendid showing and Mr. Lewis tied for first in the oratorical contest but the judges decided in favor of the Trenton entry.

HAIG'S FORCES ARE SMASHING FORWARD

HOLDING FAST TO HARD WON POSITIONS NEAR ARRAS.

EVERY WAR DEVICE USED IN BATTLES

Machine Guns, Hand Grenades, Bayonets and Liquid Fire Being Employed by Both Sides.

Special to The Democrat-Forum.

London, May 12.—General Haig's forces are smashing their way forward again, the war office announced. The British made further advances last night and early this morning following their repulse of a furious attack by the Germans.

London, May 12.—Despite the fact that the Germans are attacking with every kind of artillery and every human force the British today are holding fast to their hard-won positions on the Arras front. They beat back Teutonic attacks of unprecedented fury last night, and today one of the greatest battles of the last few weeks is in progress; machine guns, hand grenades, and bayonets coming into play. Even liquid flames, boiling oil and poisonous gas are being employed.

In the official bulletins there is not the slightest indication that the Germans have obtained a foot of ground. At some points the allies were pushed back by sheer weight of numbers, but later recovered their ground. On the French front the Germans are suffering signal defeats. The Germans were driven back by artillery fire at Cerney and Chemine Dames, but retained hold of a few yards of trenches from which they were later ejected by bayonet attacks.

Religion, Withstanding Cynicism, Has Survived Through the Ages. Go to Church.

A GREAT NUMBER of the people who GO TO CHURCH are men and women with the WISDOM OF YEARS AND EXPERIENCE. Many young people who seem to REJOICE WHEN THEY ARE CALLED CYNICS not only fail to GO TO CHURCH, but flippantly refer to the movement.

One great writer said, "WHO ARE A LITTLE WISE THE BEST FOOLS BE." Another said, "A LITTLE LEARNING IS A DANGEROUS THING." Churches have survived through the ages. One hates to think what would become of this world without churches and religion. The churches TEACH RIGHTEOUSNESS. And yet there are some young people who are disposed to take lightly this splendid GO TO CHURCH movement.

Happily they are in the great minority, and it is certain that they will soon be moved by the AWAKENING OF RELIGION over the land. In many churches in the west preachers report a SPLENDID ATTENDANCE OF YOUNG PEOPLE.

THE DAY IS GONE WHEN IT CAN BE SAID THAT THE CHURCH IS ALL RIGHT FOR OLD WOMEN AND CHILDREN. GO TO ANY OF THE GREAT CITIES IN THE COUNTRY AND NOTE THE REAL BIG MEN, THE MEN YOU'D LIKE TO KNOW, AT DIVINE SERVICE. THEY ARE PROUD TO BE SEEN IN CHURCH. NO, INDEED, THE CHURCH IS NOT FOR THE OLD AND THE WEAK. IT IS FOR THE YOUNG AND STRONG. IT IS FOR EVERYBODY, FROM THE HIGHEST TO THE LOWEST. PRESIDENT WILSON HAS EMPHATICALLY GIVEN HIS APPROVAL TO THE GO TO CHURCH MOVEMENT.

If you are one of the young men who has been reached by the GO TO CHURCH appeal and now regularly attend church, you are to be commended. But you can do more. You can induce that friend of yours who is inclined to cynicism to join the GO TO CHURCH throng. Argue with him. Plead with him. Show him the right way. If you do this, you'll be doubly rewarded.

Get him to GO TO CHURCH next Sunday.

Get him to GO EVERY SUNDAY.

SUBMARINE DANGER

ADMIRAL JELLICOE SAYS THERE IS NO SINGLE REMEDY.

EXPLAINS NAVY'S DUTY

Says That Battleships Cannot Win War Without the Strongest Co-operation on Land.

Through its news sources in Europe the International News Service has received an important communication by Admiral Sir J. Jellicoe, until recently commander of the British Grand Fleet, in which he discusses the submarine menace and other sea warfare problems. He declares there is no single sovereign remedy for the U-boat, but it is to be noted that at the time he made the statement he knew nothing of the new American inventions now being developed.

By Admiral Sir J. Jellicoe.

Nobody knows better than those in the navy that the navy cannot win a war by themselves. The navy's business, so far as the army is concerned, is to hold the ring; to get the army to its destination; to keep open its communications and carry its supplies; and to see that its operations are not interfered with. But the navy cannot win the war; the war has to be won on shore. We cannot get at the Germans. Their ships stop inside their ports, and if they come out to fight they will not go back again I hope.

Where Navy Exerts Power.

The other directions in which the navy exerts its power during the war are: First, its business is to defeat the high sea fleet wherever it appears; secondly, to sink enemy submarines wherever they are found, as difficult a task, I suppose, as was ever put before any navy; thirdly to keep open the communications to this country for our food supplies and munitions, and fourthly, to stop supplies getting into the enemy's country, and to see that an enemy ship which gets afloat has a very short life.

When the war started the submarine menace was comparatively small. In the early days the principal menace was to our fleet. As the war progressed the Germans commenced to use their submarines in utter disregard of every principle of international law and of humanity, and the departure from international law has led to a new and difficult situation. At one period the German submarines attacked our merchant ships on the surface. In order to meet that menace we armed our ships defensively.

Enemy Attack Under Water.

The enemy is now forced to attack under water, and although that has limited very much the activity of the submarine, the counter to that attack is much more difficult than to surface attack. In order to give security, we want not men, but large numbers of small craft. I should like to say that what the navy wants is for every man who takes part in the building of ships to do the utmost that lies in his power to carry out his work, because a fleet of small craft prevents losses, and the building of merchant ships replaces those lost.

There is no one sovereign remedy for the submarine. The methods for dealing with them are a combination of devices, and fresh schemes are daily introduced.

Submarine Diving Uncertain.

The process of a submarine diving and a submarine sinking are much the same in appearance, and therefore you are never certain whether she dived voluntarily or involuntarily. You know that the dive has been involuntary when some survivers are picked up. But the number of cases of that sort are not great, because when a submarine is attacked she gets all hands inside as soon as possible, ready to fire

At the same time, while it is a fact that the submarines are by no means getting off scot free, there is undoubtedly a serious time before our country and economy in food consumption should be the order of the day.

MINIMUM PRICE FOR FOOD

Dean Mumford of Missouri College of Agriculture Would Urge the Farmers to Get Guarantee.

Special to The Democrat-Forum.

Columbia, Mo., May 12.—Dean Mumford of the Missouri College of Agriculture urges all farmers to support the recommendation of Secretary of Agriculture Houston that a minimum price for food crops be guaranteed by the United States government.

"Every farmer should favor Secretary Houston's proposal that the National Council of Defense be given power to regulate prices if necessary for the efficient distribution of food products," said Dean Mumford.

"Farmers are being urged to exert every energy to produce maximum crops for the prosecution of the war. But the farmer is opposed to raising a maximum crop and having it pass into the hands of speculators for private gain to the harm of both producer and consumer. The farmer will not hesitate to produce a maximum crop if he can be assured that it will become directly available to the Government for war purposes, and will not be subjected to the manipulation of food speculators."

Kansas City Stock Letter.

Kansas City Stock Yards, May 12.—Cattle receipts of 14,000 today included 2,300 head of stock cattle that passed through yesterday, but that left a liberal number, and a heavy run at Chicago weakened buyers here, resulting in a slight decline on some of the steers, many of the steers steady, butcher cattle and stockers and feeders strong. Thirteen thousand hogs sold 10c lower, top $15.75, and four thousand sheep sold strong. Arizona spring lambs $16.60.

Beef Cattle.

The best cattle here were pulp fed steers from Colorado and Western Nebraska, 18 cars of these selling at $12.00 to $12.25, best natives here at $11.75 to $12.00, short fed natives $10.50 to $11.50, light weight cattle without much flesh $9.00 to $10.00. The supply of pulp cattle was 35 cars, about one-half as many as on recent Mondays. Few are in sight or later this week, and the supply of that kind will be very light after this week. Butcher cattle hold their strength, the search for substitutes for steers at this season always resulting in high prices for cows, heifers and bulls. Good cows sell around $10.00, bulls up to $10.00, heifers $11.35, veal calves up to $13.50.

Stockers and Feeders.

Six loads of stock steers sold at $10.30 the first thing this morning, a strong price, and fancy stock heifers at $10.25. Few stock feeders sell under $8.00, and stock cows commence around $7.00. Feeding steers sell at $9.50 to $10.50, a few fleshy steers in the last week up to $11.25. Prices are 25 to 35 higher than a week ago, with a very good demand.

Hogs.

A good run at Chicago today weakened the situation, and sales here were 10c lower, top $15.75, medium weights up to $15.70, best light weights $15.40, bulk of sales $15.60 to $15.70. Supplies here are augmented by daily arrivals of shipments of hogs from Western range states, California, Arizona, New Mexico, and Colorado consignments having become regular incidents. These hogs are generally light weight, but that class is meeting a good demand from bacon makers, and sales of hogs 150 lbs. and upwards average 10c to 25c higher than last week. Pigs sell at $11.50 to $13.75 in most cases.

Sheep and Lambs.

Choice wooled lambs sold up to $17.60 last week, and lambs of that grade would bring more money today, if there were any offered. Arizona and California spring lambs each reached $16.50 last week, some Arizonas not quite as good here today at $16.00. Texas is the big disappointment, sending only very small supplies of common sheep, and few goats. One double deck of Angora brushers, 97 lbs. average, sold at $9.00 last week. Twenty thousand brusher goats would be required to fill orders already held here.

FINAL GOOD.

Oh, yet we trust that somehow good
Will be the final goal of ill,
To pangs of nature, sins of will,
Defects of doubt and taints of blood;

That nothing walks with aimless feet;
That not one life shall be destroyed,
Or cast as rubbish to the void,
When God hath made the pile complete;

That not a worm is cloven in vain;
That not a moth with vain desire
Is shriveled in a fruitless fire,
Or, but subserves another's gain.

Behold! we know not anything;
I can but trust that good shall fall
At last—far off—at last, to all—
And every winter change to spring.

So runs my dream, but what am I?
An infant crying in the night—
An infant crying for the light—
And with no language but a cry.
—Alfred Tennyson.

What Does Catarrh Mean?

It means inflammation of a mucous membrane somewhere in the head, throat, bronchial tubes, stomach, biliary ducts or bowels. It always means stagnant blood—the blood that is full of impurities. Left alone, it extends until it is followed by indigestion, colds, congestion or fever. It weakens the system generally and spreads its operations until systemic catarrh or an acute illness is the result.

Peruna

Is the nation's reliable remedy for this condition. It restores appetite, aids digestion, checks and removes inflammation, and thus enables the membranes, through which we breathe and through which our food is absorbed, to do their work properly. Forty-four years of success, with thousands of testimonials, have established it as the home remedy—Ever-Ready-to-Take. Its record of success holds a promise for you.

TO YOUNG MEN.

(By Lieutenant Commander E. S. Root, U. S. Navy, Inspector of Recruiting, Central Division.)

Your country is at war. For several weeks you have had time for reflection. If you have real red blood in your veins, you have said many times to yourself: "How can I best serve my country in this war?"

And your answer — what has it been? You want to do your part, but at the same time—you want to choose that branch of the service that offers the best opportunity for your future while you serve your country.

The answer, young man, is the Navy

Stop for a moment and think of what the Navy has done all down through history; think of the men it has produced, and the deeds they have done. Hark back to the beginning of our Navy. There was John Paul Jones—that intrepid leader of men who guided his ship safely through uncharted seas, who harassed the coast of England from waters strange to him, who sailed up the Thames River, destroyed three enemy ships and ran to sea again.

Young man, he had no better opportunity at the start than you have today.

Look back again into the pages of history, and stop at the name of Stephen Decatur. For your inspiration today, remember that when Decatur was sent to the Coast of Tripoli to pay tribute t othe pirates of that land—and all nations were paying tribute, Decatur went over and whipped them. That's the American way.

And again, remember McDonough, the son of a Delaware farmer, a boy whose only sea experience had been limited to coast and inland waters. In 1812, McDonough was sent to the Great Lakes to drive back the forces from Canada. He had the plain, common grit and nerve you young men of today have—and he built twelve wooden ships in 65 days and whipped the British.

Come down to the present day, young man. Take the life of Admiral Charles J. Badger of the Atlantic fleet as your guiding star. When he entered the Naval Service it was as an enlisted man. Today he is one of the nation's greatest Admirals.

Young man, the Navy offers equal opportunity to all. It is calling you NOW. IT NEEDS YOU.

And, young man, keep this in mind: The Navy offers you a life of travel, romance and adventure stronger than any page from fiction.

Who knows but that you, in the middle Western city, or on the farm young man, may be the Jones or the Decatur, or the McDonough, or the Badger of coming days?

Who knows but that you, out here many hundred miles from the sea, are the great Admiral of the future?

Join the Navy, young man.

THEY COULDN'T STAND YELLOW STREAK SIGN.

Pittsburgh. — Angry at the haste many young men were making to obtain marriage licenses in view of the country's call for unmarried citizens, an official of one of the Pittsburgh departments caused a big yellow card to be hung on the application clerk's desk in the marriage license office, with the remark that "he hoped it would turn some of the quitters back." It did. Of the first 150 couples who entered the room one day fully forty, after a look at the big yellow streak, quietly turned and disappeared.

"The Little Red School House"
The Birthplace of All Advertising

EDUCATION, conceived in the open mind of a child, pursues the grown man to the grave — offering him, through the mighty force of Advertising, insight into the complicated activities of the World. Hand-maiden of Science and Invention — Herald of Industrial Efficiency — Envoy of man's brain and brawn — Advertising visualizes the World's Work. That this mighty servant of mankind may grow in dignity, truth, and to the still greater benefit of humanity — is the purpose of the Thirteenth Annual Convention of the Associated Advertising Clubs of the World — to be held in the City of St. Louis, June 3rd to 7th, of this year.
